<b>Indicator / Action</b>	<i>Develop Community Connection team</i>	Team members identified and meeting schedule determined for SU22	Meetings scheduled June 28, July 19, Aug 23, Sep 13				
<b>Establish approach for measuring relationship health</b>	<i>Review and agree upon definitions of terms</i>	This is a living document that will update over time. Initial definitions are completed but definitions continue to come up.					
	<i>Develop questions to use in a survey tool for learning about relationships</i>	Working asynchronously with committee to develop questions					
	<i>Identify example relationships to gather initial information from and use as a model for relationship types present at CCC</i>	Working asynchronously with committee to identify models					
	<i>Gather information from multiple relationships to determine elements of different types of healthy relationships</i>		Will begin once pilot survey data is back				
	<i>Analyze information and develop framework for healthy community engagement document</i>			Anticipate this beginning late fall term			
<b>Increase in the number of formal partnerships in areas of community need (Align our relationship tracking, systems, and supports)</b>	<i>Catalogue present relationships</i>		Can begin in summer but is a longer project				
	<i>Catalogue current tracking methods</i>		May be able to happen alongside relationship data gathering process				
	<i>Evaluate tracking methods (comparisons and gap analysis)</i>				Need catalogues first		
	<i>Provide recommendations related to tracking systems</i>						
<b>Engage thoughtfully and intentionally with our community</b>							Likely what we will have are some guidelines around "how" to think about this activity and from there we can determine whether the action is a set number, changes in practices, or something else
